  - The Holistic Progress Card (HPC) represents a paradigm shift in education, moving away from traditional, marks-driven evaluation towards a comprehensive, student-centered approach.
  - It is a multidimensional assessment framework that captures the **360-degree progress** of students. It includes **academic performance, cognitive skills, socio-emotional development, creativity, physical well-being, and life skills**.
  - It transforms report cards from static records of marks into **dynamic reflections of growth and potential**. As part of our commitment to holistic development, we have introduced the new Holistic Progress Card (HPC) for the Foundational Stage (Std I and II). This report provides a comprehensive view of your child's progress in cognitive, affective (social-emotional), and psychomotor (physical) domains, aligning with NEP 2020 standards.
