

PRIMARY SECTION

The years spent by a student in the Primary Section is a vital phase of a child's growth and development. They are truly the years of creativity and spirit of adventure. It sets the foundation of lifelong learning.

ACADEMICS

We at CIS Pimpriconstantly strive to provide a happy and stimulating experience to our students. We impart knowledge through audio – visual aids (Class Edge) role play and play way methods.

EVALUATION

CIS Pimpri's evaluation approach is “If the student is not learning the way we are teaching, we impart knowledge in the way the students want to learn”. In this way we provide enriching learning experiences and bring about their holistic development.

The process of evaluation will be continuous and spread over the entire academic year. It will be “Comprehensive” as it will cover both the scholastic and co scholastic aspects of the student's growth and development. Scholastic areas will be based on the academics including art, craft, music, dance and physical education including yoga and karate. Co scholastic areas refer to life skills, value education, participation in activities and personality development.

This modified method of evaluation is Child Centered. It encourages and enables the students to deal effectively with the demands and challenges of everyday life.

CO CURRICULAR ACTIVITIES

Various activities, competitions and workshops are interspersed with academics to showcase the hidden talents of the students. They are given hands-on experience with various activities such as card making, rakhi making, paper bag making, diya decoration, lantern making, photo frame making, mask making etc. In the field of sports and physical development we have Physical Education teachers to train our students in various indoor and outdoor sports. We take our students for a one day field trip.

VALUE CREATION

We celebrate festivals of India. Through this celebration we try to cultivate values, give knowledge of rich cultural heritage of India and tap the talent and potential of our students through skit and dances . We provide a platform to our students where students participate at state and national levels e.g. We also provide ample opportunities for students to participate in inter school competitions, which will help them to boost up their confidence level and the competitive spirit in them.Olympiad Examinations, Interschool Sports Competitions, CBSE competitions like Katha Pratiyogita, Unity day celebration, Essay Competition etc. In this way we look in to overall Holistic development of our students.
