The Principal,
City International School,
Pimpri, Pune.

STRUCTURAL STABILITY REPORT

- 1) Name & Address of the Work : Stability Report of City International School at Sukhwani Elite,
Morwadi Road, Pimpri, Pune 411018.
- 2) Name & Address of the Owner : N.S.Dixit Educational Foundation,
Pune.
- 3) Year of Construction : 2004
- 4) Type of Structure : RCC Framed Structure
- 5) Number of Floors : Parking + Ground + Three upper Floors

I have inspected the site on 17/03/2019 and it is observed that

1. It is a Parking + Ground + Three upper storied building constructed in and about 15 years back.
2. The said building is quite stable to withheld all types of load such as dead load, live load, wind load etc.
& it does not create any harm to the entire building.

Considering the above points I have no objection to issue structural stability report for the said building.

P.T.O

As per the Quality Assurance Certificate given by the licensed supervising engineer or the qualified builder / contractor, I further certify that to the best of my knowledge the structural work is carried out as per the prescribed applicable standards, codes, rules, regulations and stipulations, the material used, workmanship and methodology employed for the construction work are of the accepted standards, and the work is completed to render it fit for occupation for intended use.

This certificate is issued on the clear understanding that my overall design responsibility for the safety and proper performance of the structural design ceased, the moment any additions and / or alterations damages to the structural frame is caused by accident or by tampering with the geometrical sections of structural members for any purpose what so ever, or due to overloading of the structure, lack of maintenance or any act that is detrimental to the structure as a whole.
